MONTHLY HOROSCOPE

October 2023 horoscope promises a streak of luck. The autumn wind will bring changes, mainly they will be related to personal life. Lonely people will get a chance to arrange their fate: a change of job or place of residence will bring new acquaintances. The position of the Sun in Libra requires work on oneself: everything in a person must be harmonious. Improvements will be visible after the Hunter's Full Moon in October, when the concentration of forces reaches its maximum. This is a good time to start new projects, start studying or implement plans related to the development of your business.

In the first days of October, new challenges will have to be faced, one must be ready for any turn of events. You will have to learn quickly and adapt according to the circumstances.

From a financial point of view, the middle of the month will be difficult, but each sign has its own degree of difficulty. Despite favorable conditions, people of the water element can blow away all their savings. According to the general horoscope in October 2023, there is a risk of running into scammers promising instant profits. It is important to understand that free cheese is only in a mousetrap. Mercury in Libra will help bring life into balance, as a result of which sharp moments will disappear by themselves. Of course, everyone has their own recipe for well-being, but it's always nice to be in the spotlight. So that others do not take their admiring eyes off and shower with compliments, it is important to be able to please. Perhaps you should get more sexy outfits. <https://astrologyk.com/>

FUN FACT PAGE...

Oktoberfest

It's called October but starts on September. The name "Oktober" is misleading because most of the festival happens in September. The event started in 1810 and at that time it took place during one week of October, but along the years it was extended and the starting date was changed to September because the weather is warmer and more pleasing, therefore it's easier to attract more visitors to stay even longer and enjoy the beer (and festival) throughout the night.

Munich beer only. Oktoberfest is, above all, a celebration of Bavarian traditions, so the only beer you'll find during the festival is brewed within the city limits of Munich. Only beers that fit this criteria are considered Oktoberfest Beers.

Breweries allowed at the Oktoberfest

Augustiner-Bräu

Hacker-Pschorr-Bräu

Löwenbräu

Paulaner

Spatenbräu

Staatliches Hofbräu-München

It is a 204-year-old tradition that wasn't originally a beer festival. The first Oktoberfest was held to honor of the marriage of Prince Ludwig and Therese of Saxe-Hildburghausen, in 1810. Now that's what we call a wedding party!

ABOUT US

We are a sanctuary and forever home for a variety of exotic animals. Most come from the illegal pet trade. Our job is to give them the best possible life in captivity while sharing their amazing attributes and superpowers with the public. Please know we are not a petting zoo, but a place of immersive observation that will tickle your wild side.

We discourage people from keeping exotic animals as pets. They are often kept in solitary confinement with insufficient diets and have seen the worst in humanity. We seek to undo the harm that has been done. Through proper care, space, and love from our staff and community we are giving them a new lease on life. Without Animal Tracks these animals would be destroyed. We rely on your support to give these animals their second chance.

Their survival starts with you

OUR MISSION

We are committed to promoting conservation education by teaching our community about the dangerous impact humans have on wildlife. Through immersive education, we are spreading awareness of these dangers.

STACY GUNDERSON

Owner & Executive Director

Stacy took over as Executive Director in 2008. Under her guidance Animal Tracks has rescued, or taken in well over 100 exotic animals. Many of those animals are from the illegal pet trade and have lived through horrible conditions or abuse. She knows each animal intimately, their personalities, likes and dislikes, but most importantly what each animal needs to thrive individually.

WITHOUT YOU

None of this is possible without your support. They need you, just as we do. Their survival starts with your generosity. We are working toward building a new, bigger, and advanced facility. This isn't possible without your help. I am truly grateful for every penny donated and every volunteer hour spent. Words cannot express my gratitude. Thank you!

Bindi & Bailey are adoptive sisters. They were stolen from the wild as babies. With us they have a forever home, and each other.
